## **Connor-Winfield Announces Release of New Sub-Miniature Precision TCXO for Clipped Sinewave Applications**

**Aurora, IL** — The D53G series are 5x3.2 surface mount TCXOs with clipped sinewave output logic. These TCXOs are capable of holding sub 1ppm stabilities over the -30° to 85°C temperature range.

The D53G series TCXOs are ideal for use Stratum 3 applications, GPS receivers, instrumentation, Femtocell, FTTH and FTTC applications requiring tight stability over a broad temperature range.

This new TCXO from Connor-Winfield is available from Digi-Key.

### **Product Features:**

- 3.3 VDC Operation
- Clipped Sinewave Output Logic
- Frequency Stability:  $\pm 0.50$  ppm
- Temperature Range: -30° to 85°C
- Low Jitter <1 pS RMS
- 5x3.2 mm Surface Mount Package
- Tape and Reel Packaging
- RoHs Compliant

Price: Under \$17 each in 1,000 Qty from Digi-Key
